

## “La Roscel” Vino Bianco

---

### *Vineyard*

In particularly mineral-rich and rocky soils, from which it takes its name, this delightful wine is born — fruity, slightly aromatic, with a subtle minerality

---

### *Grape Variety*

White grapes

---

### *Production*

It is initially processed in stainless steel barrels and then transferred to French oak barrels for a 48-month aging process

---

### *Characteristics*

It has a light straw yellow color with green reflections, and it is fruity and intense, reminiscent of Golden apple and acacia flowers. Fresh, lively, and with good persistence

---

### *Pairings*

A white wine with good structure, excellent for appetizers and fish, suitable for oriental dishes, and medium-aged cheeses

---
